

“Train Wreck at Woodruff Pass”

Objective: Identify items needed for first aid in the event of a catastrophe; identify items for Scout Outdoor Essentials.

Judging: This event will be judged on the accurate response to a set of questions providing first aid and scouting situations. Points will be awarded for each correct answer. Tiebreaker will be total items identified correctly.

Materials: Tarps will be used to cover the items before and after viewing. There will be a maximum of four viewing areas each containing a duplicate set of items. Items considered will be: plastic tarp, matches, staves, wood planks, blanket, sheet, first aid cream, sterile bandages (gauze), tape, Tylenol/aspirin/pain reliever, soap, ace bandage, triangular bandage, nylon rope, newspaper, water, insect repellent, alcohol, pocket knife, axe/hatchet, sun screen, trail food, water bottle, belt, mirror, cup, whistle, flashlight, water purification tablet, candle, clothes, first aid kit, emergency blanket, twine, saw, Vaseline, lighter, watch, compass, rain gear

Goal: Utilizing a Kim’s game approach, patrol members will be placed around several roped off areas and allowed to view the items for thirty seconds before they are re-covered. As a patrol they will attempt to remember the items and utilize them as necessary to provide first aid for specific cases and for Scout Outdoor Essentials. It involves all members of the patrol and requires that they work together to reach a consensus solution.

Game Setup Scenario: The patrol is part of a sightseeing trip aboard a vintage coal burning train trip into the wilderness area surrounding the Great Woodruff Mountains. It has been snowing heavily over the past several weeks. A sudden avalanche derails the train. There are four victims suffering from various injuries.

Station 1: Victim suffering from severe laceration on the lower arm – bleeding profusely.

Station 2: Victim with broken upper leg.

Station 3: Victim unconscious – breathing irregular.

Station 4: Victim suffering second and third degree burns on legs and arms

Station 5: Identify the order in which you would treat these victims for cases 1 – 4.

Station 6: Identify 10 items that are considered Scout Outdoor Essentials.

Tasks: Identify as many items as they can remember.

Identify items to be used for the four first aid situations. The items cannot be used but once.

Identify the order that victims will be treated.

Identify ten items that are considered as Scout Outdoor Essentials.

Material Needs Game 4

Set up for four participant areas

1. Four 50' pieces of Nylon rope or Caution tape
2. 16 traffic cones
3. Roll duct tape
4. 4 9X12 tarps
5. 12 clipboards

Kims game items; Need 4 of each

| 15) triangular bandage | 35) emergency blanket |
| 16) blanket | 36) first aid kit |
| 17) plastic tarp | 37) clothes (pants, shirt, socks) |
| 18) Tylenol/aspirin/pain reliever | 38) trail food |
| 19) whistle | 39) sun screen |
| 20) compass | 40) alcohol |

Game 4

“Train Wreck at Woodruff Pass”

Do not open the attached envelope until instructed

Game Setup Scenario:

Your patrol is part of a sight-seeing trip aboard a vintage coal burning train into the wilderness area surrounding the Great Woodruff Mountains. It has been snowing heavily over the past several weeks. A sudden avalanche derails the train.

When instructed gather your patrol around one of the roped off viewing areas so that each member has an unobstructed view of the wreck area.

At the whistle, the tarp will be pulled.

At the second whistle, retire your patrol to an area, open the envelope and follow the instructions.

No digital camera pictures – use your memory skills. (*This last statement was given verbally at SWC, but is added for completeness.*)

Congratulations Scouters;

You survived the train wreck! Using your patrol's vast observation skills and scouting knowledge answer the questions on the back of this sheet. A column on the right edge in a gray area provides a space to make a list of all items observed under the tarp. **PLEASE PRINT ANSWERS**

When you complete the questions, give your patrol yell and turn in your answer sheet to the Games Coordinator. This is not a timed event for scoring purposes. You will have approximately fifteen minutes to complete answers to the questions.

Patrol Name: _____

Part 1

There are four victims suffering from various injuries. Your task is to identify the needed items from those that were under the tarp to provide first aid for each of the victims. In Part 1, items can only be used once. The number of blanks in Part 1 have no relationship to an acceptable solution. The covering tarp is not one of the items to be considered. The gray area is provided to list the items viewed.

Station 1: Victim suffering from severe laceration on the lower arm and is bleeding profusely.

Station 2: Victim with broken upper leg.

Station 3: Victim unconscious – breathing is irregular

Station 4: Victim suffering second and third degree burns on legs and arms

Part 2

Station 5: Identify the order in which you would treat these victims for stations 1 – 4 in Part 1.

1st) _____ 2nd) _____ 3rd) _____ 4th) _____

Part 3

Station 6: Identify 10 items from under the tarp that are considered Scout Outdoor Essentials.

- | | |
|----------|-----------|
| 1) _____ | 6) _____ |
| 2) _____ | 7) _____ |
| 3) _____ | 8) _____ |
| 4) _____ | 9) _____ |
| 5) _____ | 10) _____ |

Gray vertical bar with horizontal lines for item listing.

Master Solution

Patrol Name: _____

Part 1

There are four victims suffering from various injuries. Your task is to identify the needed items from those that were under the tarp to provide first aid for each of the victims. In Part 1, items can only be used once. The number of blanks in Part 1 have no relationship to an acceptable solution. The covering tarp is not one of the items to be considered. The gray area is provided to list the items viewed.

Station 1: Victim suffering from severe laceration on the lower arm and is bleeding profusely.

triangular bandage sterile bandage (gauze) tape

Station 2: Victim with broken upper leg.

wood planks/staves newspaper/clothes belt/rope

ace bandage _____

Station 3: Victim unconscious – breathing is irregular

blanket watch _____

mirror _____

Station 4: Victim suffering second and third degree burns on legs and arms

sheet Tylenol/(pain killer) water

Part 2

Station 5: Identify the order in which you would treat these victims for stations 1 – 4 in Part 1.

1st) 1 2nd) 3 3rd) 4 4th) 2

Part 3

Station 6: Identify 10 items from under the tarp that are considered Scout Outdoor Essentials.
