

Gold Flake

Up till now you've been trying to find gold in large quantities. However, this time you need to saw the thinnest gold flake to reach your goal.

Using the supplied bow-saw and parachute cord you need to saw the thinnest "gold flake" possible from the log lashed to the tree. However, at no point may any patrol member step within the roped off area.

All patrols members must participate, you may have two or more on a rope or change patrol members as needed. Keep in mind, only one flake per patrol.
